

David James Blick

Toronto, ON | dblick@my.centennialcollege.ca

PROFESSIONAL PROFILE

Game Programming student and operations professional with experience translating frontline workflow problems into practical software prototypes. Comfortable with Python, JavaScript, C#, HTML, CSS, Excel, Google Sheets, and software requirements engineering. Well suited for technical evaluation, code and data annotation, workflow analysis, and technical-support tasks requiring precise written judgment, customer empathy, and evidence-based problem solving.

CORE SKILLS

Programming: Python, JavaScript, C#, HTML, CSS

Analysis & automation: Data cleaning, spreadsheet modeling, workflow automation, requirements analysis, process documentation

Operations: Shipping/receiving, inventory management, cash handling, POS, customer service, food preparation and safety

Communication: English, conversational Spanish, team coordination, technical translation for non-technical users

TECHNICAL & OPERATIONAL HIGHLIGHTS

- Built a Python shipping-document tool that accelerated order processing about 10x and cut paperwork by about 90%.
- Identified recurring courier overpayments worth approximately \$72K annually.
- Prototyped an accessibility software workaround for 3.5 mm adaptive switches, detecting switch activations through PC audio-input signal changes without a dedicated USB switch interface.
- Recognized with Williams-Sonoma's "Catch the Spirit" Employee-of-the-Month award for customer service.

PROFESSIONAL EXPERIENCE

Warehouse Associate | Brault & Bouthier Ltd | Toronto, ON | 2024

- Supported shipping, receiving, inventory, and order-processing workflows in a fast-paced warehouse environment.
- Improved documentation speed and accuracy by building practical automation for repetitive shipping paperwork.
- Investigated courier billing issues and surfaced preventable overpayment patterns.

Assistant Manager | Home Sweet Home Guanajuato | Guanajuato, MX | 2023

- Coordinated guest and customer service, scheduling, daily operations, and issue resolution in a bilingual environment.
- Helped maintain smooth service delivery by translating operational needs into clear staff procedures.

Customer Service Representative | Liquor Control Board of Ontario | Scarborough, ON | 2022–2023

- Handled high-volume customer service, POS transactions, product questions, stock support, and compliance-focused sales.
- Balanced accuracy, policy adherence, and approachable service in a regulated retail setting.

Food-service & Retail Roles | Carver Slow Roasted; Williams-Sonoma | Toronto, ON | 2016–2017

- Built foundations in customer service, merchandising, food preparation, cash handling, and team communication.
- Earned employee-of-the-month recognition at Williams-Sonoma.

EDUCATION & CERTIFICATIONS

Centennial College — Game Programming | Toronto, ON | 2025–present

Seneca College — Independent Music Production | Toronto, ON | 2021–2022

freeCodeCamp — Data Analysis with Python (2025)

freeCodeCamp — Scientific Computing with Python (2025)

Smart Serve (Ontario) | CPR Certified (2024)
